Proud collaborator and key stakeholder with the CommonWell Health Alliance®

“Having the right tools, for the right people, at the right time means we can clearly set our performance standards for each team. MEDITECH’s Revenue Cycle solution has made a huge difference for us in that regard.”
Kevin Adams, Revenue Cycle Director
Anderson Regional Medical Center

MEDITECH EXPANSE

Over 140 hospitals licensed MEDITECH Expanse since 2017

More than 540 hospitals selected MEDITECH Expanse

More than 200 hospitals licensed Expanse Ambulatory for their practice

Expanse Point of Care technology has generated more excitement than any nursing product to date! We're confident it will solve our current logistical challenges and introduce new efficiencies for bedside providers, while still maintaining the highest patient safety standards.

Joe Farr, RN, Clinical Applications Coordinator
King's Daughters Medical Center (Brookhaven, MS)

The mobility of MEDITECH Expanse is having a transformational impact on how I deliver care, and is delivering a new paradigm in physicians’ experience with EHRs. I now have the ability to interact with patients one-on-one in the room with a tablet. Patients have been impressed and like to see technology working for them.

Patrick Tupa, DO, Emergency Physician
Firelands Regional Medical Center

MEDITECH EXPANSE

✓ Browser-based platform
✓ Designed by physicians for physicians
✓ Drag, drop, pinch, and swipe your way through — anytime, anywhere

Leveraging the contemporary Expanse EHR enhances our commitment to our mission, improving the health and quality of life of the individuals and communities served.

Raphael Jaffrezic, CIO
Galway Clinic

With Expanse, we identified the need for an EHR for the post-Meaningful Use healthcare paradigm. Our clinicians deserve an open, dynamic workspace that allows them to connect care the way that works best for them and their patients. We don’t believe this is something that should be exclusive, or come at an exorbitant cost. This is the future. This is the freedom and usability that everyone in healthcare should be accustomed to.

Howard Messing
MEDITECH President & CEO
